

StationProtect™

THE ULTIMATE AIR DECONTAMINATION SYSTEM

The StationProtect™ packs a particulate and VOC smashing punch. Easy to install and maintain, its high-performance, low power draw design is exactly what your stations need to take health to the next level. The advanced filtration technology doesn't meet the standard; it raises the bar to a higher level.

StationProtect™

FEATURES

Protects against particulates, VOCs, and aerosols, which cause short and long-term health concerns.

Easy installation and placement with wheels and a single power cable to your wall's outlet.

Multi-stage cartridge system collects 99.95% of particles at 0.3 microns and removes a broad range of gaseous pollutants.

Made of steel and powder coated to withstand harsh environments, each unit is compact, rugged, and includes a three-year limited warranty.

Suitable for stations, garages, bunker gear rooms, and day rooms for improved filtration.

THE ULTIMATE AIR DECONTAMINATION SYSTEM

- 1 DELIBERATE DESIGN**
Our unbeatable construction is designed to withstand even the harshest environments, ensuring reliable and durable performance.
- 2 FLEXIBLE POWER OPTIONS**
Designed for spaces up to 2400 ft², units are powered by standard 110 or 220 volt power and provides flexibility for where it's installed.

- 3 LED FILTER LIFE INDICATOR**
Stay on top of filter maintenance with our advanced filter life tracking, ensuring timely replacement and consistent air quality.
- 4 ADVANCED FILTRATION TECHNOLOGY**
Our filtration technology combines HEPA filtration for particulates and molecular filtration for VOCs into a single air decontamination cartridge kit.
- 5 EXTENDED FILTER LIFE THROUGH DESIGN**
The StationProtect's replaceable pre-filter extends the life and expands the range of environments the unit can maintain performance in.

FilterTechnology

HEPA

- Particulates
- Mold Spores
- Aerosols
- Ash & Dust

MEDIA

- Formaldehyde
- Toluene
- PAHs
- PFAS
- Many VOCs
